

PROGRAM GUIDELINES

In order to provide outstanding service and satisfaction, the following guidelines apply to all manufactured stone orders:

- To provide great customer satisfaction, we request that all orders be faxed. All phone orders will be read back by our customer service staff.
- All stock stone flats and corners are sold in full cartons only. This is to ensure that every customer receives a factory-blended mix of product.
- Hearthstones, trim stones, keystone, wainscot sills, receptacle boxes, light boxes and rock face sills are sold by the piece.
- All sales are final – no returns. Again, this is to ensure that every customer receives a factory-blended mix of product.
- Refer to the StoneCraft "Installation Instructions" to estimate the quantity of flat stones and corners required for your job. **Note:** One lineal foot of corners covers an area equal to approximately 1/2 square foot of stone flats. Actual square footage may vary due to grout line and installation variances.
- **Note:** Using OSB as sheathing material may cause cracking.

Special order stone flats and corners are available.

Special orders require 2 to 3 week lead time and carry upcharges.

- If for any reason it becomes necessary to cancel a special order, we will make every effort to accommodate the request. There is usually a 24-hour period before orders are final with the manufacturer. If we are unable to cancel or stop the order with the manufacturer, the customer is responsible for the material cost only.
