

Solid Surface

Surface solutions with solid possibilities.

The benefits of adaptable, dependable design.

Imagine the possibilities: a surfacing material that gives you design versatility, renewability and repairability, and the ability to virtually eliminate seam issues. Available in over 50 colors and designs, Wilsonart's 100% acrylic solid surfaces are ideal for a wide range of environments, where you need a surface that looks good, performs well, and provides options that no other surfacing material can.

Wilsonart Solid Surface is FDA and NSF approved for food preparation areas. Due to its inconspicuous waterproof seams, it's easier to clean and keep free of mold and mildew. Plus, Wilsonart Solid Surface has also received GREENGUARD® Indoor Air Quality and GREENGUARD® Children & Schools Certifications, ensuring that it won't contribute to harmful indoor air quality, and eight Wilsonart Solid Surface designs have been certified by Scientific Certification Systems (SCS) for recycled content. See sustain.wilsonart.com for certifications.

Resistant to stains and easy to maintain, Wilsonart Solid Surface also requires no surface sealants or costly day-to-day maintenance. And because it is renewable and repairable, slight scratches can be buffed away by the customer or professionally addressed by a Certified Wilsonart® Fabricator.

PRODUCT REFERENCE

All Wilsonart Solid Surface products are manufactured with acrylic resins, fire-retardant fillers, and proprietary coloring agents that create uniform color throughout the surface thickness. Tech data available at wilsonartcontract.com.

Wilsonart Solid Surface:

Product Type 051

Sheet Dimensions

Panel Size: 30" x 144" (76.2cm x 365.8cm)

Thickness: Product Type 051 = 0.490" (1.24cm) ± 0.025" (0.06cm)

Finish: Final finish is supplied by the fabricator and may range from matte to high gloss, depending on the customer's specification. Surfaces with gloss and semi-gloss finishes require more maintenance than matte or satin finishes. Darker colors also may require more attention.

Applications: Interior horizontal work surfaces

Key Benefits: Versatility and consistency

Product Type 025

Sheet Dimensions

Panel Size: 30" x 120" (76.2cm x 304.8cm)

Thickness: Product Type 025 = 0.240" (0.6096 cm) ± 0.015" (0.0381cm)

Finish: The final finish is supplied by the fabricator and may range from matte to high gloss, depending on needs.

Applications: Interior vertical surfaces, i.e., wall/elevator paneling, tub/shower surrounds, backsplashes, counter facades, and interior signage.

Key Benefits: Easy to apply, thus reducing installation costs

Wilsonart Solid Surface is GREENGUARD® Indoor Air Quality and GREENGUARD® Children & Schools Certified.

About Wilsonart® Contract

Serving the design and specifications community, Wilsonart® Contract is the resource for our exclusive line of high performance commercial products, including Wilsonart® Contract Laminate, Wilsonart® Contract Flooring, and the Wilsonart® Contract Portfolio, comprising Wilsonart® Decorative Metals, Wilsonart® Solid Surface, Wilsonart® Solid Phenolic Core (SPC) panels, and Wilsonart® TFM. Wilsonart International, based in Temple, Texas, is a leading manufacturer of decorative surfacing products. For more information on Wilsonart Contract, please call our Customer Service Smartline at 1-800-433-3222 or visit wilsonartcontract.com.
